

New Employee Onboarding Portal – Functional and Technical Requirements

1. Overview

Create a centralized onboarding portal accessible on the Board's website for off-site use.

The portal aims to eliminate paper-based processes, automate onboarding tasks, track progress, and facilitate data flow between departments, e.g., HR, Payroll, IMS, and Facilities.

2. Functional Requirements

2.1 User Roles and Permissions

Role	Description
HR Admin	Full access to create and edit onboarding templates, update or remove documents, and view submission progress of new employees.
Department Admins	Access to view and retrieve department-specific data/documents.
New Employee	Log in with personal email address to review job-specific content, fill out forms online or download files to type in offline, and submit or upload completed forms.

2.2 Access and Authentication

- *Off-site access for all people:* The portal is accessible remotely without VPN via a web browser.
- *Secure login for HR admin and department admins:* Board credentials with MFA.
- *Temporary secure login for new employees:* Using personal email address and password combined with a verification code sent via email on **every login** attempt.
- *Role-based access for new employees:* Restricting access to job-specific content based on the employee's job type.

2.3 Portal Layout and Navigation

- The portal is a public-facing portal landing page.
- Each job category (e.g., teachers, technicians, administrators, managers) has a subpage which opens a job-specific onboarding dashboard.
- Easy-to-navigate interface with collapsible sections for job-specific documents:
 - Offer letter
 - Job descriptions
 - Benefits information
 - Collective agreements
 - Policies/Administrative Procedures and Guidelines (APGs)

Requirements for New Employee Onboarding Portal

- A highlighted section of required forms to be returned to HR:
 1. HR forms
 - Can be filled out and submitted directly on the portal.
 - Or can be downloaded, filled out offline, and uploaded back.
 2. Personal documents
 - IDs, certificates, etc.
 - Additional documents

For the complete list of required forms, please view section [6. Documentation](#).
- Mandatory training section
 - Showing links to WHMIS, AODA, health & safety, cybersecurity training, etc.
 - Having checkboxes for employees to mark each training completion.
 - Uploading button to upload their own training completion certificates.

2.4 Document Distribution and Acknowledgement

- Distribution on the portal: Upload, preview, and tag documents to job type.
- Version control: Documents have version tracking to avoid outdated information.
- Digital signing/acknowledgement **for admins** via integrated eSignature tools.

2.5 Form Completion and Document Collection

Form completion:

- Auto-fill capabilities using employee data
- Required field validation
- Dynamic logic (conditional fields/forms per job type)
- Digital signature support **for new employees**
- Save progress and resume later.
- Can download a form to fill out offline and upload back.

Document collection:

- Enable HR to track the status of submitted documents per new employee.
- Send automated email reminders to employees for incomplete forms.

2.6 Task Automation and Data Routing

- Auto-route completed forms to SharePoint sites of relevant departments: HR, Payroll, IMS, and Facilities.
- Auto-tagging and metadata for internal processing (in case we use Microsoft Purview).
- Auto-notifications via email to departments upon new submission.

2.7 Training Management

- Embed or link to mandatory training modules.
- Auto-track completion (checkboxes) every end of day, auto-send reports to HR, and auto-send reminders for incomplete training to new employees via email.
- Allow employees to upload their own training completion certificates.

3. Technical Requirements

3.1 Platform and Hosting

- Hosted on the board's existing web page or SharePoint Online environment.
- OR cloud-hosted portal with API connections to internal systems, e.g., IPPS, etc.

3.2 Integration

- Develop APIs or middleware to integrate with the IPPS system for seamless data transfer.
- Third-party tools: Support integration with e-signature platforms and training platforms.
- Data formats: Use standard formats (e.g., JSON, XML) for interoperability.

3.3 Performance

- Load time: Ensure page load times are under 3 seconds under normal conditions.
- Document upload: Support uploads of files up to 10 MB (e.g., photos, PDFs).
- Concurrent users: Handle at least 50 simultaneous users without performance degradation.

3.4 Scalability and Maintainability

- Modular design to accommodate changes
- Easy document updates by HR staff
- Integration-ready for future enhancements

4. Acceptance Criteria

- The portal is accessible off-site with secure login for admins and temporary secure login for new employees.
- Job-specific documents are organized and accessible via sub-links.
- Employees can complete, sign, and submit forms electronically.
- HR can track document and training completion status per employee.
- Automated reminders are sent for incomplete tasks.
- Data flows seamlessly to HR, Payroll, IMS, and Facilities departments.

5. Optional Enhancements

- Chatbot for onboarding support
- Mobile-responsive design

6. Documentation

1. Required forms to be returned to HR

- 2023 TD1 – Federal
- 2023 TD1 – Provincial
- Emergency Contact Information Form 2021

Requirements for New Employee Onboarding Portal

- Employee Confidentiality Agreement
- HR24 Employee Responsible Use of Information Technology Agreement 2024
- Offence Declaration 2021
- Personal Information Form 2021

- Offer letter signed
- Photo ID (driver's license, or passport)
- Proof of education
- Banking information (void cheque or direct deposit form)
- Social insurance number
- Vulnerable Sector Police Record Check

2. Offer letter enclosures

- Accessible Ontario Booklet
- BR70 Code of Conduct
- BR140 Information Technology
- CS35 Personal Electronic Devices Employee Use
- EL40 External Relations
- EL60 Employee Relations
- Employment Standards Poster
- HR1 Medical Information and Medical Appointments
- HR02 Ability Management
- HR13 Workplace Anti-Harassment and Appropriate Conduct
- HR24 Employee Responsible Use of Information Tech
- HR26 Confidentiality
- HR36 Right to Disconnect from Work
- HR37 Code of Conduct to Protect Students
- Mission Vision Values Strategic Pathways
- PIM01 Privacy Standard
- PIM1 Privacy of Student Information Working Outside of the Office
- PIM02 Privacy Breach Protocol
- PIM04 Privacy of Student Information
- SS17 Duty to Report Children in Need of Protection
